The Costume Gallery of Florence keeps a prestigious collection of antique fabrics, most of which still unknown to the public and experts. The gem of the collection are the 400 pieces of silk velvet produced between the XV and the XVII centuries by the most qualified weavers in Europe. The gem of the collection are the 400 pieces of silk velvet produced between the XV and the XVII centuries by the most qualified weavers in Europe. Through the costumes of the collection the author recreates the history of silk velvet, a luxurious fabric with an ever-changing aspect through the centuries, sometimes characterized by its brightness and sometimes by a plastic look. The study about the Italian manufactures of the time, leader on a worldwide scale in this field, is based on the analysis of single pieces and the legislations adopted in the main centers of production such as Florence, Genoa, Lucca, Milan, and Venice. The results of this research are exposed with the help of color images and are a fundamental contribution to the study of ancient fabrics.

This volume is the catalog of the exhibition The Chimera of Arezzo , displayed at the J. Paul Getty Museum at the Getty Villa in Los Angeles from July 16th, 2009 to February 8th, 2010. Discovered outside of Porta S. Lorentino in Arezzo in 1553, this impressive Etruscan bronze dates back to the 5th century B.C. and is usually housed in the Museo Archeologico Nazionale in Florence. It depicts a mythical beast with

characteristics of a lion, a goat and a serpent; she is the daughter of the giants Typhoon and Echidna, and was vanquished by the hero Bellerophon on the back of the winged horse Pegasus. For Florence, the Chimera is more than an exceptional archaeological artifact; it is a symbol, the first piece of a Granducal collection and an object much admired by Cosimo I, according to Benvenuto Cellini. Today, for the very first time, this unique and irreplaceable masterpiece of Etruscan bronzework will be presented to the American public along with several other works from the collection of the Getty Museum and Research Library. Beyond the presentation of the works exhibited, this volume outlines the history of the myth of the Chimera, and elaborates on this precious Etruscan bronze and the image of this monstrous creature in the Etruscan world through the scientific contributions of Fulvia Lo Schiavo, Karol Wight, Claire L. Lyons, Seth D. Pevnick, G. Carlotta Cianferoni, Adriano Maggiani, Mario Iozzo. English text (Italian-language version also available).

- Ninety-four delicious recipes for Italy's answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

These portions (with certain minor exceptions) were done directly from data supplied by Mr. Sydney Enever, who heads Abingdon's competition department. Gianni Versace created a fashion house that defined late twentieth-century glamour, invented the supermodel, and sanctioned in the public consciousness a supremely self-assured feminine sexuality. His debut line in 1978 was instantly successful; in the Eighties, his extravagant designs and his vision of powerful women defined the era, and culminated in the Nineties with the supermodel phenomenon - his designs worn by those glamazons who featured on every Vogue cover. The book reveals how the more brazen elements of his design - the jewelled embroidery, the bondage straps, the safety-pin gowns - were predicated on supremely skilled tailoring, deft use of materials, and innovative techniques. Alongside are Vogue's eye-witness accounts of the Versace lifestyle - the palazzos and parties, the art, the celebrity friends.

Vogue on Gianni Versace is a celebration of a designer and a house that, in only 19 years, came to dominate the catwalk and the red carpet.

In the world of film collecting, the claim "find of the century" may sound an unpardonable exaggeration. But what discovery can equal it?

Collectors had hailed the discovery of the occasional lost Keystone comedy in which Chaplin played, but nobody had the slightest idea that somewhere in England, somewhere in France, and somewhere in the United States lay three separate treasure troves of silent film which would, for the first time, reveal the working methods of the greatest single figure of the cinema. It was a treasure hunt involving innocence and guile, accident and coincidence. A treasure hunt which took us to Switzerland, France and the United States. The treasure, when it was uncovered, revealed information as precious as the film itself. From the material, we compiled a television series called Unknown Chaplin, three hour-long documentaries produced for Thames Television. Apart from the experience of making the series, we learned so much about Chaplin we could not squeeze into the commentary we decided to preserve it in the form of a book.

its unmistakable orienting function. Public spaces where a large number of people interact require a good orientation system to handle and facilitate the circulation of these people and a good signage system is key to achieving this objective.

Chi era Giambattista Tiepolo? Chi sono gli eleganti personaggi ritratti nei suoi dipinti e affreschi? Attraverso un linguaggio adatto ai più piccoli, questa monografia vuole avvicinare i bambini alle opere del pittore del Settecento, grande protagonista della storia dell'arte: con un linguaggio adatto ai bambini, vengono narrati la sua vita, il contesto storico nel quale è vissuto e la tecnica pittorica da lui impiegata. Lo scopo principale è stimolare il bambino a guardare il mondo attraverso gli occhi dell'artista, a vivere l'esperienza didattica e ludica come avventura condivisa. Seguono cinque approfondimenti su altrettanti capolavori per accompagnare il bambino a conoscere più nel dettaglio alcune delle opere principali del Tiepolo. Ma il libro è anche un activity book per scoprire questo artista disegnando, prendendo ispirazione dalle sue opere. Il racconto e gli approfondimenti storico-artistici sono infatti affiancati da attività ludico-ricreative (collage, coloriage, disegno, scrittura) nelle quali il bambino mette alla prova quanto ha appreso. Il giovane lettore diventa così protagonista delle attività e dei giochi proposti e, sperimentando le tecniche, i temi e le modalità espressive dell'artista, conosce e impara l'arte facendola. Età di lettura: da 8 anni.
