Well over a million people of Sri Lankan origin live outside South Asia. The Encyclopedia of the Sri Lanka Diaspora is the first comprehensive study of the lives, culture, beliefs and attitudes of immigrants and refugees from this island. The volume is a joint publication between the Institute of South Asian Studies, NUS, and Editions Didier Millet. It focuses on the relationship between culture and economy in the Sri Lanka diaspora in the context of globalisation, increased transnational culture flows and new communication technologies. In addition to the geographic mapping of the Sri Lanka diaspora in the various continents, thematic chapters include topics on “long distance nationalism”, citizenship, Sinhala, Tamil and Burgher diaspora identities, religion and the spread of Buddhism, as well as the Sri Lankan cultural impact on other nations.

this book is a compilation of the cover story articles published in Korea Magazine from 2010 to 2011, offering a glimpse into Korea and Korean culture to foreign audiences.

How did the British come to conquer South Asia in the late eighteenth and early nineteenth centuries? Answers to this question usually start in northern India, neglecting the dramatic events that marked Britain’s contemporaneous subjugation of the island of Sri Lanka. In *Islanded*, Sujit Sivasundaram reconsiders the arrival of British rule in South Asia as a dynamic and unfinished process of territorialization and state building, revealing that the British colonial project was framed by the island’s traditions and maritime placement and built in part on the model they provided. Using palm-leaf manuscripts from Sri Lanka to read the official colonial archive, Sivasundaram tells the story of two sets of islanders in combat and collaboration. He explores how the British organized the process of “islanding”: they aimed to create a separable unit of colonial governance and trade in keeping with conceptions of ethnology, culture, and geography. But rather than serving as a radical rupture, he reveals, islanding recycled traditions the British learned from Kandy, a kingdom in the Sri Lankan highlands whose customs—from strategies of war to views of nature—fascinated the British. Picking up a range of unusual themes, from migration, orientalism, and ethnography to botany, medicine, and education, *Islanded* is an engaging retelling of the advent of British rule.

In this present era of competition, every competitive examination consists of 5 sections Quantitative Aptitude, Reasoning, General English, Computer Science and General Awareness related to banking industry. After teaching more than 18,000 students in 28 years, we have seen a lot of students spending their time practicing aptitude and reasoning alone. But the students who cleared the exam would definitely say the above method of practicing would not help because merely passing in Aptitude and Reasoning sections will not help. Students should also think about the other sections and overall cut off. We know a lot of students who cleared all the sections but failed to clear the overall cut off. In fact, Practicing GK and English is the only way to raise the overall cut-off. So, we have decided to dedicate this entire magazine just for General Awareness & Banking awareness. We sincerely believe that students who practice the next 100 pages would secure 40 marks from the Banking awareness section. We thank Google Play for publishing our e-magazine on their mobile platform. We also thank our students who assisted to bring this magazine out.

This book presents a collection of original research about every day, innovative, interactive, and multiple religiosities among Sri Lankan Buddhists, Hindus, Muslims, Christians, and devotees of New Religious Movements in post-war Sri Lanka. The contributors examine the unique and innovative religiosity that can be observed in Sri Lanka, which reveals a complex reality of mingled, and even simultaneous, cooperation and conflict. The book shows that innovative religious practices and institutions have achieved a new prominence in public life since the end of Sri Lanka's civil war in 2009. Using the analytic framework of 'innovative religiosity' to allow researchers to look at this question between and across Sri Lanka's plural religious landscape in order to escape both the epistemological and ethnographic isolation of studies that limit themselves to one form of religious practice, the chapters also investigate the extent to which inter-religious tolerance is still possible in the wake of Sri Lanka's religion-involving civil war, and the continuing influence of populist Buddhist nationalism, globalization and geopolitics on Sri Lanka's post-war governance. The book offers a novel approach to the study of post-conflict societies and furthers the understanding of the status of tolerance between religious practitioners in contexts where both ethnic conflict and multi-religious sites are prominent. This book is an important resource for researchers studying Anthropology, Asian Religion, Religion in Context and South Asian Studies.
