Existing books on garage and workshop space are either oriented towards the lightest-duty automotive enthusiast or assume an effectively unlimited budget. The vast majority of enthusiasts want to spend their money on tools and parts yet need heavier-duty capabilities from their garage. This book does not address garden rake storage, but describes in detail how to set up an organized and functional garage or workshop for professional-level work at the lowest possible price. "How to Design, Build and Equip Your Automotive Workshop on a Budget" provides the necessary information as the hobbyist considers various tools, designs, installations, and products available for their automotive workspace. Many of the ideas presented for workbenches and storage can be implemented at low cost, or even for free if you're extra resourceful. There are step-by-step instructions for the most essential and practical procedures, including basic electrical wiring sufficient to connect up bank of lights, a compressor, a welder circuit as well as a procedure for routing power from your household electrical service panel and plumbing basic shop fixtures. Most enthusiasts have a limited amount of car

This book contains information necessary to the proper handling and care of your Ford car. Read it carefully—particularly the instructions on lubrication, the cooling system, care of battery, etc., which are absolutely necessary to economical and satisfactory operation. Your car is a splendid piece of machinery. If properly cared for, it will give you years of satisfactory service at little cost. When repairs are needed, we recommend having the work done by an authorized Ford dealer. They are provided with special service equipment. Furthermore they are interested, more than any one else, in your personal satisfaction with the car. Let experienced mechanics make repairs or adjustments. Your car is too valuable a piece of machinery to place in unskilled hands. Expert workmanship is just as essential in servicing your car as it is in building it.
