

Headstart In History Reformation And Rebellion 1485 1750

The story of Henry VIII and his six wives is a well-known example of the caprice and violence that dominated that king's reign. Now Derek Wilson examines a set of relationships that more vividly illustrate just how dangerous life was in the court of the Tudor lion. He tells the interlocking stories of six men—all, curiously enough, called Thomas—whose ambitions and principles brought them face to face with violent death, as recorded in a simple mnemonic: 'Died, beheaded, beheaded, Self-slaughtered, burned, survived.' Thomas Wolsey was an accused traitor on his way to the block when a kinder death intervened. Thomas More and Thomas Cromwell, whose convictions and policies could scarcely have been more different, both perished beneath the headman's axe. Thomas Howard, Duke of Norfolk, would have met the same end had the king's own death not brought him an eleventh hour reprieve. Thomas Wriothesley, Earl of Southampton, and Thomas Cranmer, Archbishop of Canterbury, though outliving the monarch, perished as a result of that war of ambitions and ideologies which rumbled on after 1547. Wriothesley succumbed to poison of either body or mind in the aftermath of a failed coup. Cranmer went to the stake as a heretic at the insistence of Mary Tudor, who was very much the daughter of the father she hated. In the Lion's Court is an illuminating examination of the careers of the six Thomases,

Online Library Headstart In History Reformation And Rebellion 1485 1750

whose lives are described in parallel-their family and social origins, their pathways to the royal Council chamber, their occupancy of the Siege Perilous, and the tragedies that, one by one, overwhelmed them. By showing how events shaped and were shaped by relationships and personal destinies, Derek Wilson offers a fresh approach to the political narrative of a tumultuous reign.

Give your students the best chance of success with this tried and tested series, combining in-depth analysis, engaging narrative and accessibility. Access to History is the most popular, trusted and wide-ranging series for A-level History students. This title:

- Supports the content and assessment requirements of the 2015 A-level History specifications
- Contains authoritative and engaging content
- Includes thought-provoking key debates that examine the opposing views and approaches of historians
- Provides exam-style questions and guidance for each relevant specification to help students understand how to apply what they have learnt

This title is suitable for a variety of courses including:

- AQA: Religious Conflict and the Church in England, c1529-c1570

How did Christians in early modern Western Europe express their sense of community? This book explores the various ways in which religious identities were defined, developed and defended - within both Protestant and Roman Catholic contexts, in England and on the Continent - over a period vital for the history of Christianity. As such it will be of interest not only to historians of religion but also to students of social and

cultural history in general.

No period of British history generates such deep interest as the reign of Elizabeth I, from 1558 to 1603. The individuals and events of that era continue to be popular topics for contemporary literature and film, and Elizabethan drama, poetry, and music are studied and enjoyed everywhere by students, scholars, and the general public. The Historical Dictionary of the Elizabeth World provides clear definitions and descriptions of people, events, institutions, ideas, and terminology relating in some significant way to the Elizabethan period. The first dictionary of history to focus exclusively on the reign of Elizabeth I, the Dictionary is also the first to take a broad trans-Atlantic approach to the period by including relevant individuals and terms from Irish, Scottish, Welsh, American, and Western European history. Editors' Choice: Reference

Aiming to provide challenge and stimulus for more able pupils, the "Headstart in History" books have high narrative content; extended writing opportunities and suggestions videos and historical fiction.

This volume seeks to address a relatively neglected subject in the field of English reformation studies: the reformation in its urban context. Drawing on the work of a number of historians, this collection of essays will seek to explore some of the dimensions of that urban stage and to trace, using a mixture of detailed case studies and thematic reflections, some of the ways in which religious change was both effected and affected by the activities of townsmen and women.

Despite significant social and economic changes and the material advancement of the gentry, this period saw the survival of the Welsh language and its culture, of older concepts of gentility and many conservative features in the daily life and activity of all ranks in the community.

The Catholic Reformation provides a comprehensive history of the 'Counter Reformation in early modern Europe. Starting from the middle ages, Michael Mullett clearly traces the continuous transformation of the Catholic religion in its structures, bodies and doctrine. He discusses the gain in momentum of Catholic renewal from the time of the Council of Trent, and considers the profound effect of the Protestant Reformation in accelerating its renovation. This book explores how and why the Catholic Reformation occurred, stressing that moves towards restoration were underway well before the Protestant Reformation. Michael Mullett also shows the huge impact it had not only on the papacy, Church leaders and religious ritual and practice, but also on the lives of ordinary people - their culture, arts, attitudes and relationships. Ranging across the continent, The Catholic Reformation is an indispensable new survey which provides a wide-ranging overview of the religious, political and cultural history of the time.

This is the first comprehensive account of English Renaissance literature in the context of the culture which shaped it: the courts of Henry VIII and Elizabeth I, the tumult of Catholic and Protestant alliances during the Reformation, the age of printing and of

Online Library Headstart In History Reformation And Rebellion 1485 1750

New World discovery. In this century courtly literature under Henry VIII moves toward a new, more personal poetry of sentiment, narrative and romance. The development of English prose is seen in the writing of More, Foxe and Hooker and in the evolution of satire and popular culture. Drama moves from the churches to the commercial playhouses with the plays of Kyd, Marlowe and the early careers of Shakespeare and Jonson. The Companion tackles all these subjects in fourteen newly-commissioned essays, written by experts for student readers. A detailed chronology of major literary achievements concludes with a list of authors and their dates.

Uncovers one of the most remarkable lives in the tumultuous English Reformation Thomas Cranmer (1489-1556) was the first Anglican Archbishop of Canterbury, the author of the Book of Common Prayer, and a central figure in the English Protestant Reformation. Few theologians have led such an eventful life: Cranmer helped Henry VIII break with the pope, pressed his vision of the Reformation through the reign of Edward VI, was forced to recant under Queen Mary, and then dramatically withdrew his recantations before being burned alive. This gripping biography by Leslie Winfield Williams narrates Cranmer's life from the beginning, through his education and history with the monarchy, to his ecclesiastical trials and eventual martyrdom. She portrays Cranmer's ongoing struggle to reconcile his two central beliefs -- loyalty to the crown and loyalty to the Reformation faith -- as she tells his fascinating life story.

Marjo Kaartinen has brought the world of monks, friars, and nuns freshly alive in the

late fifteenth and early sixteenth century. Their monastic vows - obedience, poverty, chastity, and stability - still made a difference to them and to the laypeople around them, even when they failed to live up to them. Much of Kaartinen's story is told through the words of the religious themselves, from self-defence to self-criticism, and this makes the reading all the better. *Religious Life and English Culture in the Reformation* helps us understand why some forms of Catholic sensibility lasted so long and why Protestant reformers drew from the very ideals they wanted to undermine.

Volume II of a dictionary that presents the history of the United Kingdom. It directs attention towards Scotland, Wales, and Northern Ireland, focusing on the specifics of each region, their economy, cultural traditions, and history. It begins with a chronology of the U.K., several maps, and an introductory overview to the problems these three regions faced concerning their inclusion in a nation and simultaneous attempts to preserve their individual character. No index. Annotation copyrighted by Book News, Inc., Portland, OR

This volume introduces the main theological topics of Reformation theology in a language that is clear and concise. Theology in the Reformation era can be complicated and contentious. This volume aims to cut through the theological jargon and explain what people believed and why. The book begins with an essay that explains to students how one can approach the study of 16th century theology. It includes a guide to major events, persons, doctrines, and movements.

Offers a concise synthesis of the valuable research accomplished in recent years which has transformed our view of religious belief and practice in pre-Reformation England. The author argues that the church was neither in a state of crisis, nor were its members clamouring for change, let alone 'reformation' during the early years of Henry VIII's reign.

This book is a new and wide-ranging introduction to the Reformation throughout the British Isles. Full treatment is given to the fascinating and often very different but interrelated experiences in England, Wales, Scotland and Ireland. This approach is unique. Previous introductions have invariably concentrated on England, with lesser sections on Wales and Scotland, often ignoring Ireland altogether. The book is more than a modern introduction, survey and summary of the Reformation period. Ian Hazlett provides fresh research and critical analysis, which will be of considerable interest to a new generation of scholars and students. The material is written and organized in a highly readable and accessible form. Here is a well-balanced introduction and resource for non-specialists as well as scholars and students.

A collection of essays on European history, 1453-1648

Authority and accessibility combine to bring the history and the drama of Tudor England to life. Almost 900 engaging entries cover the life and times of Henry

VIII, Mary I, Elizabeth I, William Shakespeare, and much, much more. * Almost 900 entries covering people, events, ideas, movements, institutions, and publications * An extensive chronology of important events from the Battle of Bosworth Field in 1485 to the death of Elizabeth I in 1603 * Maps and photographs * A guide to related topics * Appendixes that include genealogies and lists of European monarchs, contemporary popes, English bishops, speakers and sessions of Parliament, and major battles, rebellions, and uprisings * A bibliography of historical novels set in the period * An annotated list of films and television programs set in the period * A list of useful websites * An extensive, up-to-date bibliography divided into topical sections

Reformation and Rebellion 1485-1750 covers the following topics: 1 Kings, Queens and Parliament 2 The Early Reformation, 1510-47 3 The End of Catholic England 4 The Stuart Crisis: Civil War to Glorious Revolution 5 The Making of the UK: Stability a

In this paper, which launches the Headstart History Papers series, Sir Geoffrey Elton, formerly Regius Professor of Modern History at Cambridge University, sets out the essence of his thought on Thomas Cromwell and the challenges to which his views have been subjected. He reviews the career of Cromwell and considers the impact he had on politics in the 1530s.

The Handbook takes as its subject the complex phenomenon of Christian monasticism. It addresses, for the first time in one volume, the multiple strands of Christian monastic practice. Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions, as well as contemporary 'new monasticism'. The essays in the book span a period of nearly two thousand years—from late ancient times, through the medieval and early modern eras, on to the present day. Taken together, they offer, not a narrative survey, but rather a map of the vast terrain. The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors, and the essays are best understood as a series of loosely-linked episodes, forming a long chain of enquiry, and allowing for various points of view. The authors are a diverse and international group, who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions, and the volume as a whole, set out an agenda for the future direction of monastic studies. In today's world, where there is increasing interest in all world monasticisms, where scholars are adopting more capacious, global approaches to their investigations, and where

monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.

Martin Greschat's seminal work is the first biography of the important Protestant reformer to be written in over seventy years. Now translated into English, this work--"the most comprehensive account of Bucer's place within the context of the history of the Reformation" (The Oxford Encyclopedia of the Reformation)--transcends normal biographies by providing information in relation to the social and political context of the sixteenth century. Lucid in style and mature in scholarship, Greschat's Martin Bucer is a splendid contribution to Reformation studies.

When, in October 1517, Martin Luther pinned his Ninety-Five Theses to the door of All Saints' Church in Wittenberg he shattered the foundations of western Christendom. The Reformation of doctrine and practice that followed Luther's seismic action, and protest against the sale of indulgences, fragmented the Church and overturned previously accepted certainties and priorities. But it did more, challenging the relationship between spiritual and secular authority, perceptions of the supernatural, the interpretation of the past, the role of women in society and church, and clerical attitudes towards marriage and sex. Drawing on the most recent historiography, Helen L Parish locates the Protestant Reformation in its many cultural, social and political contexts. She assesses the Reformers' impact on art and architecture; on notions of authority, scripture and tradition; and - reflecting on the extent to which the printing press

Online Library Headstart In History Reformation And Rebellion 1485 1750

helped spread Reformation ideas - on oral, print and written culture.

John Merbecke (c.1505-c.1585) is most famous as the composer of the first musical setting of the English liturgy, *The Booke of Common Praier Noted (BCPN)*, published in 1550. Not only was Merbecke a pioneer in setting English prose to music but also the compiler of the first Concordance of the whole English Bible (1550) and of the first English encyclopaedia of biblical and theological studies, *A Booke of Notes and Common Places* (1581). By situating Merbecke and his work within a broader intellectual and religio-cultural context of Tudor England, this book challenges the existing studies of Merbecke based on the narrow theological approach to the Reformation. Furthermore, it suggests a re-thinking of the prevailing interpretative framework of Reformation musical history. On the basis of the new contextual study of Merbecke, this book seeks to re-interpret his work, particularly BCPN, in the light of humanist rhetoric. It sees Merbecke as embodying the ideal of the 'Christian-musical orator', demonstrating that BCPN is an Anglican epitome of the Erasmian synthesis of eloquence, theology and music. The book thus depicts Merbecke as a humanist reformer, through re-evaluation of his contributions to the developments of vernacular music and literature in early modern England. As such it will be of interest, not only to church musicians, but also to historians of the Reformation and students of wider Tudor culture.

Reformation and Rebellion 1485-1750 Heinemann

Royal Priesthood in the English Reformation assesses the understandings of the Christian doctrine of royal priesthood, long considered one of the three major Reformation teachings, as held by an array of royal, clerical, and popular theologians during the English Reformation. Historians and theologians often present the doctrine according to more recent debates rather

than the contextual understandings manifested by the historical figures under consideration. Beginning with a radical reevaluation of John Wyclif and an incisive survey of late medieval accounts, the book challenges the predominant presentation of the doctrine of royal priesthood as primarily individualistic and anticlerical, in the process clarifying these other concepts. It also demonstrates that the late medieval period located more religious authority within the monarchy than is typically appreciated. After the revolutionary use of the doctrine by Martin Luther in early modern Germany, it was wielded variously between and within diverse English royal, clerical, and lay factions under Henry VIII and Edward VI, yet the Old and New Testament passages behind the doctrine were definitely construed in a monarchical direction. With Thomas Cranmer, the English evangelical presentation of the universal priesthood largely received its enduring official shape, but challenges came from within the English magisterium as well as from both radical and conservative religious thinkers. Under the sacred Tudor queens, who subtly and successfully maintained their own sacred authority, the various doctrinal positions hardened into a range of early modern forms with surprising permutations. The five-volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration ('out-of-England'). It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, the Thirty-Nine Articles, and royal supremacy, but then follows those traditions as they spread beyond England-and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent. Secondly, it does the same for the doctrines, church practices, stances toward state and society, attitudes toward Scripture, and characteristic patterns of organization that also originated in earlier

Online Library Headstart In History Reformation And Rebellion 1485 1750

English Dissent, but that have often defined a trajectory of influence independent ecclesiastical organizations. Volume IV examines the globalization of dissenting traditions in the twentieth century. During this period, Protestant Dissent achieved not only its widest geographical reach but also the greatest genealogical distance from its point of origin. Covering Africa, Asia, the Middle East, America, Europe, Latin America, and the Pacific, this collection provides detailed examination of Protestant Dissent as a globalizing movement. Contributors probe the radical shifts and complex reconstruction that took place as dissenting traditions encountered diverse cultures and took root in a multitude of contexts, many of which were experiencing major historical change at the same time. This authoritative overview unambiguously reveals that 'Dissent' was transformed as it travelled.

The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives. Contributed by a distinguished panel of academics, each essay conveys in direct, jargon-free language a genuinely international, wide-angled view of the ideas, traditions and institutions that lie behind the contemporary urgency of world history.

William Cobbett (1763-1835) was a prolific writer, best known as the anti-Radical founder of Cobbett's "Political Register" which ran from 1802-35. This collection of his writings presents the texts fully reset and annotated with biographical and analytical introductions. Volume 5: A History of the Protestant Reformation in England and Ireland 1824—1826.

an important part in their time.

Henry VIII changed the course of English life more completely than any monarch since the Conquest. In the portraits of Holbein, Henry Tudor stands proud as one of the most powerful figures in renaissance Europe. But is the portrait just a bluff? In his new book Derek Wilson explores the myths behind the image of the Tudor Lion. He was the monarch that delivered the Reformation to England yet Luther called him 'A fool, a liar and a damnable rotten worm'. As a young man he gained a reputation as an intellectual and fair prince yet he ruled the nation like a tyrant. He treated his subjects as cruelly as he treated his wives. Based on a wealth of new material and a life time's knowledge of the subject Derek Wilson exposes a new portrait of a much misunderstood King. PRAISE FOR DEREK WILSON'S PREVIOUS WORKS: The Uncrowned Kings of England: 'Stimulating and authoritative.' John Guy 'Masterly. [Wilson] has a deep understanding of...characters, reaching out across the centuries.' Sunday Times Hans Holbein: Portrait of an Unknown Man: 'Fascinating.' The Reader's Guide to British History is the essential source to secondary material on British history. This resource contains over 1,000 A-Z entries on the history of Britain, from ancient and Roman Britain to the present day. Each entry lists 6-12 of the best-known books on the subject, then discusses those works in an essay of 800 to 1,000 words prepared by an expert in the field. The essays

provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication.

Professor David Bebbington is a highly regarded historian. He holds a chair at the University of Stirling, has been President of the Ecclesiastical History Society, and has delivered numerous endowed lecture series, as well as being deeply involved in the Dr Williams's Dissenting Academies Project. He is both a popular and influential academic historian, whose writings have significantly shaped our thinking about the history of evangelicalism, Baptist life, and political developments. In *Pathways and Patterns*, colleagues, former research students and friends who are indebted to Professor Bebbington and value his contribution to scholarship join together to pay tribute to his outstanding work. Not only has he stimulated academic endeavour, he has also given much personal support, not least to those in the Baptist Historical Society and in Colleges, among them Spurgeon's College and Baylor University (USA) where he is a Distinguished Visiting Professor. This volume reflects his wide involvements and the grateful esteem in which he is held. Among Professor Bebbington's achievements has been both instituting and masterminding the very important International Conference on Baptist Studies (ICOBBS), held every three years in different parts of the world. It is appropriate, then, that this volume was presented to him at the

Seventh ICOBS Conference held in Manchester, July 2015.
