In this exhilarating thriller inspired by real-life serial killer Ted Bundy, FBI profiler Caitlin Hendrix faces off against a charming, merciless serial killer. In southern Texas, on Saturday nights, women are disappearing. One vanishes from a movie theater. Another, from her car at a stoplight. A mother is ripped from her home while checking on her baby. Rookie FBI agent Caitlin Hendrix, newly assigned to the FBI's elite Behavioral Analysis Unit, fears that a serial killer is roaming the dark roads outside Austin. Caitlin's unit discovers the first victim's body in the woods, laid out in a bloodstained white baby-doll nightgown. A second victim in a white nightie lies deeper in the forest's darkness. Around the bodies, Polaroid photos are stuck in the earth like headstones, picturing other women with their wrists slashed. The women in the woods are not the killer's first victims, nor are they likely to be his last. To track the UNSUB, Caitlin must get inside his mind; he is a confident, meticulous killer, capable of charming his victims until their guard is down, snatching them in plain sight. He then plays out a twisted fantasy—turning them into dolls for him to possess, control, and ultimately destroy. Caitlin's profile leads the FBI to focus on one man: a charismatic, successful professional who easily gains people's trust. But can they apprehend him before it's too late? As Saturday night approaches, Caitlin and the FBI enter a desperate game of cat and mouse, racing to capture the cunning predator before he claims his next victim.

Magnus, she begins to suspect Magnus is not a fellow human.

Hilarious, moving and brilliantly told.' - Susan Johnson 'It reads like the very best of spy thrillers.' - Matthew Condon 'An intimate and compelling look at an ordinary family who happen to be ASIO agents.' - Kristina Olsson Growing up in the 1950s, the three Doherty children were trained by their parents to memorise car number plates, to spot unusual behaviour on the street and, most important of all, to avoid drawing attention to themselves. The children became unwitting foot soldiers in Australia's battle against Soviet infiltration in the Cold War. They attended political rallies, stood watch on houses owned by communist sympathisers and insinuated themselves into the UFO Society. In 1956 the Doherty family went on a beach holiday with Vladimir and Evdokia Petrov, the famous Soviet defectors, who were hiding from Soviet assassins. Dudley and Joan Doherty swore their children to secrecy, and for decades they didn't even discuss among themselves the work they did for ASIO. *With My Little Eye* is a poignant and very funny account of a peculiar childhood in 1950s suburban Australia.

Since the earliest days of Spanish exploration and settlement, New Mexico has been known for lying off the beaten track. But this new history reminds readers that the world has been beating paths to New Mexico for hundreds of years, via the Camino Real, the Santa Fe Trail, several railroads, Route 66, the interstate

highway system, and now the Internet. This first complete history of New Mexico in more than thirty years begins with the prehistoric cultures of the earliest inhabitants. The authors then trace the state's growth from the arrival of Spanish explorers and colonizers in the sixteenth century to the centennial of statehood in 2012. Most historians have made the territory's admission to the Union in 1912 as the starting point for the state's modernization. As this book shows, however, the transformation from frontier province to modern state began with World War II. The technological advancements of the Atomic Era, spawned during wartime, propelled New Mexico to the forefront of scientific research and pointed it toward the twenty-first century. The authors discuss the state's historical and cultural geography, the economics of mining and ranching, irrigation's crucial role in agriculture, and the impact of Native political activism and tribe-owned gambling casinos. *New Mexico: A History* will be a vital source for anyone seeking to understand the complex interactions of the indigenous inhabitants, Spanish settlers, immigrants, and their descendants who have created New Mexico and who shape its future.
