Coinage - it is one of the most successful and consistent technologies ever invented. Nothing else we still use in everyday life has a history quite like it. Look around at all the things that would bewilder a Greek, Roman, or Renaissance ancestor; then, dig into your purse or pocket for that one artifact that they would immediately recognize as part of their world. What does numismatics reveal about our past that could never be discovered from any other source? How has numismatics advanced using modern science? Does it still suffer from racist ideas about physiognomy and phrenology? What does its
