Is it possible to erase memories or to implant them artificially? Do heavy-metal records contain subliminal messages? Do religious cults brainwash recruits? What were the CIA and MI6 doing with LSD in the 1950s? How far have the world's militaries really gone? The bestselling author of *All the Shah's Men* and *The Brothers* tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.

Do you want to learn the most powerful manipulation forces with persuasion and mind control techniques, attract fragile people into its network? If yes, then keep reading...Dark Psychology is one of the arts of persuasion and mind control. Psychology refers to the study of the behaviors of human beings. It is the center of every human being's thinking, their deeds, and socialization. Therefore, Dark Psychology is basically the phenomenon through which human beings apply manipulation, persuasion, and mind control techniques to fulfill their intentions. In dark psychology, there is the 'Dark Psychology Triad' which is one of the easiest predictors of manipulator's behavior, collapsed relationships, and also being problematic. The Dark Psychology Triad includes: The narcissists - These kinds of people are filled with ego, grandiosity, and have no empathy or sympathy. The Machiavellians - These kinds of people use manipulation, persuasion, and mind control to exploit and lure people. In addition to this, they are always immoral. The psychopathy - They are friendly and always charming, impulsive, selfish, lack empathy, and are not remorseful. No one in this world would wish to be a victim of manipulation even though it happens whether you are conscious or unconscious of it. In the case you fall under manipulation, it is not necessarily someone in the Dark Psychology Triad, but you will face persuasion on a daily basis. Manipulation tactics always manifest themselves in regular commercials, Internet advertisements, sales tactics, and in your workplaces. If you are a parent, you must have come across these tactics in your everyday life since children tend to experiment with tactics so that they can get what they want. Dark Psychology is used by people who you genuinely love or trust. In Dark Psychology, the manipulators use the following tactics: They flood their targets with love, compliments, and buttering up to acquire what they want. They lie too much, exaggerate things, tell untruths or even tell partially true stories. They deny their love to those they are targeting through withholding their attention. They give some choice routes that distract you from the choice you do not want them to make. They apply reverse Psychology, which involves doing something which motivates their victim to do the opposite, which turns out to be what they wanted. They use words assumed to have the same definition, but later tell you they meant something else throughout the conversation. This book gives a comprehensive guide on the following: -What is dark psychology-How dark psychology is used in the world-Techniques of how dark psychology manages to manipulate people-Defending yourself from dark psychology-How dark psychology affects social life and people's relationships-Come up with your own technique-How manipulative behavior develops-Introduction to psychological warfare-Common tactics and techniques used to influence
