Writing Classified and Unclassified Papers for National Security is designed to serve as a style guide for those in the intelligence profession and for those aspiring to that career and pursuing studies in intelligence, national security, homeland security, or homeland defense. Often, the main difference between a work-in-progress and a finished manuscript is the tenacity of the writer. You can see your idea play out inside your head in beautifully composed and communicated scenes. Then you start to write, but the words feel clunky. Your critical inner voice tells you your writing is not as good as it should be. You start to self-sabotage. You convince yourself that you don't have enough time to sit down and do the work anyway. And your dream of writing this book remains as just a

This nine-chapter book narrates a writing-centered approach to the teaching of literature and literary research. As the title suggests, the book also embraces a thematic approach to reading and writing about twentieth-century American literature, focusing on the grounds for hope in an age of despair. The first five chapters explore in detail the teaching of the twentieth-century American literature course at the University of Pristina in Kosovo, where the author served as Fulbright Professor of American Literature in the spring semester of 2012. Throughout, these chapters narrate students' in-class interactions to illustrate writing-to-learn strategies for teaching the literature. Chapter six then follows the same cohort of 22 students as they learned to ground their literary research in their own questions about American and Balkans narratives of oppression and liberty, of despair and hope. The last three chapters

document the responses of students and their professors to this American theme of liberty and hope as seen through the Balkans lenses of ethnic violence and emerging republican government. Specifically, chapter seven focuses on students' participation in a blog featuring Balkans literature that explores the same issues of liberty and justice examined in the American literature they have read. Chapter eight then celebrates student writing, the fruit of the writing-to-learn strategies narrated in earlier chapters. Finally, chapter nine narrates professors' and students' responses, gathered through surveys and interviewing, to questions about their country's violent past and the value of literary study in preparing citizens to shape a new republic.
