important garden information? To have that information at your fingertips? The good news is: Help is on the way. Enter the GARDEN JOURNAL and PLANNER. Unlike other journals or planners, the GARDEN JOURNAL and PLANNER is complete. It's your all-in-one tool for planning your garden, organizing and tracking your garden activities, and recording and preserving everything you want to remember about your garden. What's more, the GARDEN JOURNAL and PLANNER supplies grid paper, sketching paper, and pages for displaying pictures, sketches, and photos. Thus the JOURNAL/PLANNER is not just for writing. It enables you to create a visual as well as a written record of your garden. The GARDEN JOURNAL and PLANNER is divided into two major sections: JOURNAL and PLANNER. Each month of the JOURNAL features:

- A list of suggested garden tasks for that month
- A page for your monthly to-do list
- Journal pages for everything you want to record about your garden

The Journal was designed for flexibility. You may begin any day of any month. You write in the dates. There is no need to wait until January 1 to begin. The PLANNER section features:

- Grid paper for planning your garden
- Blank pages for sketching, displaying your garden photos and more!
- A section to record your garden suppliers and keep track of your orders

The GARDEN JOURNAL and PLANNER is an invaluable gardeners' companion, whether your garden is in the

This garden planner has been created to make gardening a breeze. Keeping on top of what jobs need doing (and when) can be a particular challenge when growing fruits and vegetables. The basics of when to sow, plant out, and harvest can be complex enough between different varieties of carrot. Add in concerns over which bugs might eat the sprouts this month, when to water, feed, or protect from the elements and it can fast become a complex operation. Plants and Garden Plant Inventory - No more hunting for seed packets; record that information here. Note down the space required, location, and any pests or diseases to be on the lookout for. Record recommended and actual sowing dates and estimate when to plant out and harvest. Garden Design - Plan out your plot on squared pages to make sure spacing and location are correct for each plant. Planning Year Planner - An at a glance overview of the entire year. Plan and organise tasks by both season and month. Recurring Tasks - Watering, feeding, mowing - list recurring tasks here as a quick reference guide and organise them into daily, weekly, monthly, and yearly tasks. Undated Month Planner - Plan and organise tasks for the month with a four weekly planning page. List which plants to sow, plant out, and harvest, along with jobs to do, pests to watch out for, purchases to make, and notes. Notes and Lists Spending Trackers - Track any purchases along with a running total and stay in control of costs. Lists - Handy checklist pages with space above to categorise as required. Notes - Plenty of lined pages to make quick notes or add in any insights and tips for future years. We have designed this book to suit as many gardeners as possible. Whether you are an experienced gardener or just starting out, we hope this book will become an indispensable reference to revisit year after year.

daily basis, you just use the easier version of a prompted log book and planner which includes prompts to organize your gardening experience and outcome. Things like temperature, light, water supply, prices of supplies, and so on. It is a less structured & more creative and fun process. Once you start achieving your daily planning and outcome logging goals then you can replicate the entire process all over again if you slip back into lazy and unproductive mode. Customers of Infinitely are applying a daily gardening planning ritual to become a better, more experienced, excited, resourceful, inspired & creative gardener. They are recording their successes in a gardening planner just like this one. They also are developing a passion for keeping a daily journal, notebook, diary, blank cookbooks, calendar & more that goes hand in hand with this beautiful planner or for other related lifestyle goals, hobbies & activities. This gardening planner that you are about to invest in is an exact replica of what successful gardeners are using with joy on a daily basis to write down their outcomes and gardening experiences. For the gardener who wants to enjoy the benefits of gardening, without the frustrations. FOR THE COST OF ONE SIMPLE GARDEN TOOL, you can OWN THE MOST VALUABLE GARDEN TOOL OF ALL; one that will save you hundreds and perhaps thousands of dollars in mistakes. Even more valuable than your favorite garden trowel or spade is a written record of what works in your garden. WHILE GARDENING BOOKS AND THE INTERNET ARE FULL OF GREAT ADVICE, THEY CAN'T REPLACE PERSONAL EXPERIENCE. Your garden is in your micro-climate, with your soil. Perennials in one part of the country aren't perennials in another. There are simply too many plants and too many variables for anyone to remember from year to year what worked where and what didn't and why. You need to remember WHAT WORKS FOR YOU-IN YOUR GARDEN. Every gardener faces repeat attacks of pests or disease and needs to remember which treatment worked and which did more harm than good. Every gardener has weeded out emerging perennials, forgetting what they planted where. Every gardener needs a memory! THE GARDEN JOURNAL, PLANNER & LOG BOOK is a book of garden forms with the flexibility needed to personalize your style of record keeping. With this one book you can track your purchases from store to harvest to propagation, and never waste money and labor again. What really makes the difference between a great and a mediocre garden is how well the gardener keeps track of all the information needed to enhance success and avoid repeated failures. GARDENING IS AN ART, BUT IT'S ALSO A

SCIENCE. THE GARDEN JOURNAL , PLANNER & LOG BOOK is designed to make record-keeping simple and easy. Every form is designed to include all the pertinent information needed, while minimizing the amount of time required to record that information. Just on the individual plant pages alone, there are over fifty possible check boxes for each plant. Use as many or as few as you desire, and record as much or as little as you wish in the spaces for other information. * Fill out log pages for annuals, biennials and perennials, with the location of each plant * Keep track of the lifecycle of all your flowers, herbs, vines, etc. on log pages. * Fill in the times to prune, trim and tidy which plants by season, depending on your area. * Make a plan for up to four years on the planning pages. * Draw out garden plots for twenty beds on graph paper with notes on the pages opposite. * Keep records of hardscaping, weather, formulas, pests and diseases, cultivation and propagation, bloom and harvest times, flowers, bulbs, fruit, vegetables, herbs, vines, shrubs and trees. * Keep a diary for all the things you simply must write out using sentences or drawings, because as much as gardening is a science, it is an art above all. YOUR GARDEN WILL LOOK LIKE ART; but you will know that THE GARDEN JOURNAL, PLANNER & LOG BOOK is the science behind your success. Author's note: The book binding is hinged on the 11" top edge, to open like a calendar. Due to the fact that the printing company does not have in place protocols to handle an 11" landscape spine layout, the result is an incorrectly rotated image on the sales page.
