From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that's part memoir/part inspiration/part DIY. Rob Kenney's father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

The mall is so old school—these days kids are hanging out on YouTube, and depending on whom you ask, they're either forging the digital frontier or frittering away their childhoods in anti-intellectual solipsism. Kids on YouTube cuts through the hype, going behind the scenes to understand kids' everyday engagement with new media. Debunking the stereotype of the self-taught computer whiz, new media scholar and filmmaker Patricia G. Lange describes the collaborative social networks kids use to negotiate identity and develop digital literacy on the 'Tube. Her long-term ethnographic studies also cover peer-based and family-driven video-making dynamics, girl geeks, civic engagement, and representational ethics. This book makes key contributions to new media studies, communication, science and technology studies, digital anthropology, and informal education.

The Cat in the Hat introduces beginning readers to maps—the different kinds (city, state, world, topographic, temperature, terrain, etc.); their formats (flat, globe, atlas, puzzle); the tools we use to read them (symbols, scales, grids, compasses); and funny facts about the places they show us (“Michigan looks like a scarf and a mitten! Louisiana looks like a chair you can sit in!”).
